AMTRAN Launches Redesigned Website and New Mobile Website

AMTRAN is an integral and irreplaceable component of Blair County's transportation infrastructure, and an innovative leader in public transportation excellence in Pennsylvania and throughout the USA.

Corning, NY – September 12, 2014

AMTRAN of Altoona, Pennsylvania has launched a new website designed by creative [web design firm](#), inCommand Technologies.

AMTRAN's new website includes a new modern look with all the same great features. The website integrates with Avail Technologies myStop program allowing riders to see where their bus is at any time. A new mobile website was also launched providing a better browsing experience for users on a mobile device. A major aspect of the new site is the use of inCommand Technologies' Content Management System, allowing AMTRAN to update all the content of their website.

About AMTRAN

AMTRAN's mission is to improve the economic well-being and the quality of life of their customers, their community, and the AMTRAN Team through the provision of excellent transportation services. They achieve this mission through the following strategies:

- Ensuring good stewardship of public funds, and assuring continuous funding through current partners as well as from new sources;
- Providing services that are increasingly reliable, safe and secure, convenient, clean and comfortable, understandable, affordable, and are delivered by empathetic employees;
- Achieving high employee morale and job satisfaction in terms of compensation, working conditions, training, empowerment, relationships, safety and security, policies and procedures, and labor/management cooperation;
- Maintaining and updating their equipment and facilities to provide customer benefits and service efficiencies;
- Being an important partner in regional economic development.
