

Beartown, Inc. Launches New Responsive Website

Beartown provides product development services to customers that do not have the expertise or resources in-house to meet the demands of their business. These services include design, engineering, rapid prototyping, reverse engineering, inspection, multi-axis CNC machining and CNC laser cutting & etching.

Corning, NY – August 31, 2015

Beartown, Inc. of Corning, NY has launched a new website designed by creative [web design firm](#), inCommand Technologies.

The website features an updated, modern look, as well as a responsive design. Responsive web design (RWD) is a web design methodology that allows websites to be created for an optimal browsing experience whether the user is on a desktop computer, tablet or smartphone. A major aspect of the new site is the use of inCommand Technologies' Content Management System, allowing Beartown, Inc. to update all the content of their website.

About Beartown, Inc.

Beartown consists of a small group of talented engineers, machinists, and technicians who can develop your concept into a viable product, or enhance existing ones. Their skills and experience can be applied at any point in the product development process. They always provide the highest quality solutions and added value to exceed their customers' expectations.
